City of Empire to City of Diversity: A Visual Journey - 2 week residency

The From City of Empire to City of Diversity: A Visual Journey schools exhibition is a smaller version of Sampad's original exhibition, which was at The Library of Birmingham in 2022. Presenting key features from the project, alongside striking photographs by Ernest Dyche, this mini-version is the perfect stimulus for conversations around migration and diversity. Small enough to fit anywhere in the school, previous schools have displayed it in the hall, for all students to see on their lunch break.

Accompanying the exhibition are comprehensive classroom resources, including oral histories, storytelling and an interactive map, which have already equipped teachers with the skills to confidently discuss the heritage of people from Birmingham with thousands of young people.

Supporting online materials including oral histories and archive footage are free to all Associate Schools to access.

A set of A4 laminated photographs are on loan for the duration of the residency.

Sapphire Schools will be given booking priority. All remaining slots will then be filled in the order that booking sheets are received.

A free Heritage CPD day will be run in the Autumn Term to support Associate Schools in making the most of their exhibition residency (see page 3).

This exhibition can be accompanied by our acclaimed theatre in education piece, My Journey, My Birmingham (see page 18).

"I have more ideas to use in the classroom and feel more informed about migration to Birmingham."
